

## **Brian P. Landis**

### **Managing Director**

Brian Landis brings more than 31 years of industry and consulting experience to Butler University. Landis is currently leading client service delivery for the Butler Business Accelerator. From its inception in August, 2006, the Accelerator has engaged its five professional project managers in over 100 projects with 37 companies in 19 industries. Over 20 faculty members and 80 student analysts have participated on project teams to deliver more than 20 consulting offerings in this, the only management consulting firm in the United States run out of a College of Business.

Prior to helping to found the Accelerator, Landis worked at the global consulting firm Accenture, where he became a partner during his nine years with the firm. Landis specialized in manufacturing and supply-chain improvement, technology implementation and large-scale program management. A strong advocate for the benefits of lifelong learning, he coordinated capability development for Accenture's Chicago-based analysts and participated in several joint programs with universities in Indiana, including his alma mater, Purdue University in West Lafayette, as well as Indiana University in Bloomington.

Landis graduated first in class with a bachelor of science degree in industrial engineering from Purdue University and received the Krannert Scholar award during an M.S.I.A. in management from the Krannert School at Purdue University. Landis' diverse business background also includes 19 years working for three Fortune 500 companies - Alcoa, Detroit Diesel and IBM - in positions such as production manager, production control manager and project manager of both manufacturing improvement and computer systems initiatives.
